NOTES:

Stainless Steel Drums have a very long service life and are ideal for transporting specialised products in the Food, Chemical and Pharmaceutical industries.

The standard metal thickness is 304 Stainless Steel. If required, they can be supplied to 315 or 316 specification.

The stainless steel 2" TriSure closure is E.P.D.M., alternative seals of Nitrile, Viton or Polypropylene may be specified.

It is the Shipper's responsibility to ensure that packagings are suitable for their intended purpose and conform to the relevant Transport Regulations.

Further details on Request.
