

SAR-GEL® BLUE Water Finding Paste

Description

SAR-GEL® BLUE water finding paste provides a fast, reliable way to detect water bottoms in storage tanks containing gasoline and gasoline/ethanol blends containing up to 15% ethanol.

It is also effective with diesel, jet fuel, fuel oil, biodiesel, and other water incompatible solvents. The orange paste turns blue on contact with water and works especially well in alcohol blend systems.

Special Features

Phenolphthalein-free Water/alcohol indicating paste shows the presence of water bottoms in fuel storage tanks Available in one-ounce tubes Orange paste turns blue on contact with water Works especially well in alcohol blend systems (up to 15% alcohol)

SAR-GEL® Blue

Typical Physical And Chemical Properties

Appearance

Orange to blue paste
