

This diagram shows the heat sink assembly in an exploded perspective view. It includes a base plate (17) with mounting holes, a heat sink (56) with a finned structure, a mounting bracket (16) with a central hole, and a screw (58) used to secure the assembly. The heat sink (56) is shown with a central hole and a finned structure. The mounting bracket (16) is shown with a central hole and a finned structure. The screw (58) is shown with a hexagonal head and a threaded shaft.
