

Tried and trusted globally.
Unique innovative solution leads
to huge growth of FUELSTAT®

FUELSTAT®

Who we are:

FUELSTAT® fuel tests are developed, manufactured and marketed by Conidia Bioscience Ltd. The tests were initially developed as part of the international intergovernmental research and publishing organisation, CABI. Now widely available, the tests are marketed across industries under the FUELSTAT® brand.

Based in Egham, Surrey, UK, Conidia Bioscience Ltd was founded in the early 2000s by experts in immunoassay technology and holds the internationally patented intellectual property for FUELSTAT®.

Dr Joan Kelley, FUELSTAT® inventor and Technical Director of both CABI and Conidia, is the power behind the extensive Conidia Bioscience R&D programme.

How to buy:

FUELSTAT® is available throughout the world through our wide distribution network. Please contact your distributor (details below) or Conidia Bioscience Inc, 60 State Street, Suite 700, Boston, MA 02109 direct and we will put you in touch with the right distributor for your needs.

FUELSTAT®

The 10 minute test for microbial contamination in fuel

As simple as 1-2-3
Test. Result. Report.

Market leading
FUELSTAT®
just got even better

FUELSTAT® has OEM listings from
Airbus, Boeing, Bombardier, Embraer, Fokker amongst others...

FUELSTAT® meets the ASTM International D8070-16 Standard

FUELSTAT® is listed as an approved product by Joint Inspection Group

FUELSTAT® is listed as an approved product by IATA. Conidia Bioscience is a Strategic Partner with IATA.

FUELSTAT® Plus

introducing
NEW immunoassay
technology to fuel testing.

Test with FUELSTAT® Plus right here, right now!

FUELSTAT® sets new standards in microbial contamination protection. This ground-breaking solution vastly outperforms all other testing methods.

- Ultra simple test that requires 4 drops of sample
- Test only takes 10 minutes opposed to 4-7 days!
- No risk of cross contamination
- Proven track record in medical fields for simplicity, accuracy and reliability

Microbial contamination causes massive unplanned costs and disruption

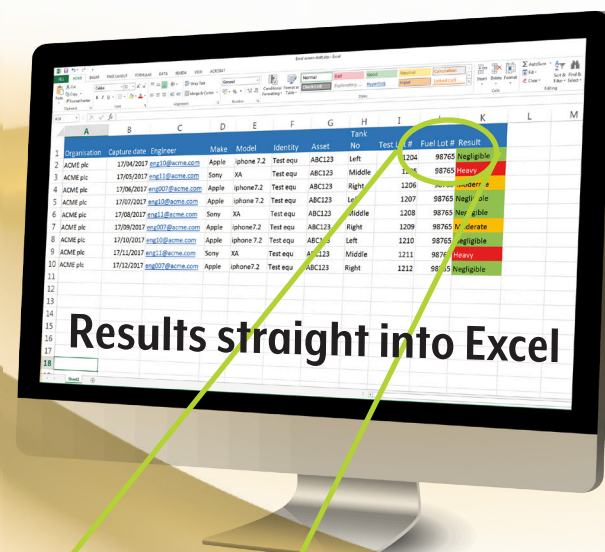

- Catastrophic effects such as blocked fuel systems, damaged fuel probes and corroded tanks
- Repair and replacement costs can be \$millions if left to develop. Disruption to use of assets can cause substantial operational problems
- Potential safety of life and environmental impacts mean considerable risk to any fuel user or supplier

NEW FUELSTAT® Result

Free to download app
Gives instant results

- Immediate, absolute result on screen
- Eliminates risk of human error in interpretation, app gives result
- Operates off Smartphone technology

Total control of testing with FUELSTAT® Report.

- Traceability of compliance centrally
- Identification of hotspots
- Planning of correct testing program

Organisation	Capture date	Engineer	Identity	Asset	Tank No	Test Lot #	Fuel Lot #	Result
ACME plc	17/04/2017	eng10@acme.com	Test equ	ABC123	Left	1204	98765	Negligible
ACME plc	17/05/2017	eng11@acme.com	Test equ	ABC123	Middle	1205	98765	Heavy
ACME plc	17/06/2017	eng007@acme.com	Test equ	ABC123	Right	1206	98765	Moderate

The FUELSTAT® Result Solution

As simple as 1-2-3

Test. Result. Report.

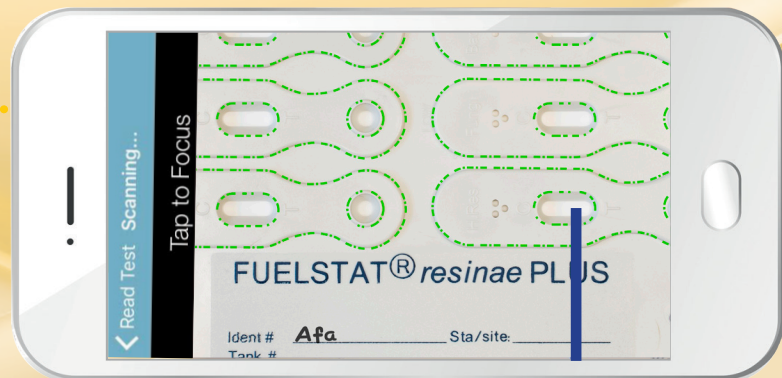

The 10 Minute Test

- 4 drops of sample
- 10 minutes to result
- Immunoassay technology: No cross contamination

FUELSTAT® Result

- Smartphone technology
- No risk of misinterpretation
- Instant outcome

FUELSTAT® Report

- Simple Report Format
- Instant Central Reporting
- Complete Control
