TECHNOLOGY

The key to the dispensing system is the **clear dialogue between GPV 2.0 and the entire MCO 2.0 system**, plus the wireless communication between the GPV 2.0 solenoid valve and the Easyview nozzle. Optimized integration down to the tiniest detail.

ENHANCED ERGONOMICS

The nozzle **design** has been further improved

ROBUST CONSTRUCTION

High strength and performance are the core **properties** of the Easyview nozzle.

TECHNOLOGY

Easyview is a **more practical and intelligent nozzle**. The **large size display** shows the dispensing data transmitted on a wireless connection (zigbee) from the associated GPV 2.0. This means the nozzle no longer needs an internal flow meter, resulting in **significant weight reduction and less risk of damage**.
