

## DIPPING TAPES WHITE ENAMELLED STEEL C/W WEIGHT

- 13 mm wide steel tape phosphated and enamelled white
- Printed with black and red figures and black graduations
- Graduated in mm one side, feet inches and 1/16ths on the reverse
- Supplied complete with weight LT-2, graduated in mm and inches into 16ths
- Weight is connected to the tape by a strong spring steel swivel hook
- Supplied on a lightweight aluminium frame winder

Part Number	Length
FR-D-415W-ES-10	10m/33ft
FR-D-415W-ES-15	15m/50ft
FR-D-415W-ES-20	20m/66ft
FR-D-415W-ES-25	25m/82ft
FR-D-415W-ES-30	30m/100ft
FR-D-415W-ES-50	50m/165ft

## DIPPING TAPES *Metri-Polysan* NYLON COATED STEEL C/W WEIGHT

- 13 mm wide steel tape phosphated and enamelled yellow
- Printed with black and red figures and black graduations
- Metri-Polysan nylon coating firmly bonded to the surface provides a dipping tape with the same clarity and ease of reading as white enamelled patterns, but with a far longer working life due to resistance to abrasion and kinking
- Graduated in mm one side, feet inches and 1/16ths on the reverse
- Supplied complete with weight LT-2, graduated in mm and inches into 16ths
- Weight is connected to the tape by a strong spring steel swivel hook
- Supplied on a lightweight aluminium V frame winder

Part Number	Length
FR-D-405-V-10	10m/33ft
FR-D-405-V-15	15m/50ft
FR-D-405-V-20	20m/66ft
