## Features & Information

- This dual capability cartridge works to reduce odours, remove water discoloration and volatile organic compounds, while also being capable of removing sediment and other fine particulates throughout its media
- Combines the advantages of both a high dirt-loading depth cartridge with the adsorption capabilities of Powder Activated Carbon (PAC)
- Carbon impregnated sheet wrapped around a polypropylene core, supported by an outer layer of polyethylene netting and vinyl plastisol end caps
- Available in large diameter 9¾" and 20" lengths for reduced cartridge change-out
