Ordering Details

Product Code	Micron (μ)	Standard Diameter Lengths (")	End Caps*	Seal Material
PPP	0.1, 0.2, 0.45, 1, 3, 5, 10, 20, 30, 50, 100	4", 9"	AA, CG	STANDARD SILICONE = S OPTIONAL EPDM = E VITON = V
	1, 5, 10	5.3 = 5	120	SILICONE = S
PPP				

e.g. PPP-3-9"CGS

Packaging	4"	5.3"	9"	10"	20"	30"	40"
	9 at 2kg	18 at 4kg	9 at 4kg	9 at 4kg	12 at 9kg	12 at 14kg	12 at 18kg

Features & Information

- WRAS approved and BS6920, FDA compliant media offering 11 micron sizes, 7 standard length options and 10 end cap choices, this range is versatile in its application suitability and capabilities
- Sharp cut-off characteristics ensure dependable particle removal of the size required, maximising filter life and application integrity - see online for efficiency data
- Thermally-bonded ensuring no leaching of adhesives into the filter stream, particularly important for certain applications such as food and beverage
- Extensive chemical compatibility is achieved with all polypropylene constructions
- Also part of the PPP range is the absolute rated junior 5.3" cartridge suitable for use in the Advanta, Nuclepore and Filterite LMO housings
